

# CSWIP Underwater Inspection Programme

An internationally recognised certification of competence

## Introduction

Underwater inspection training and certification was introduced in the early 1980s. The CSWIP In-service Inspection Management Committee is representative of offshore operators, diving contractors and classification societies.

The CSWIP certification scheme is recognised worldwide for competence and assurance in this field. There are four categories available depending on the career path selected:

- 3.1U – NDT Inspection Diver
- 3.2U – NDT Inspection Diver
- 3.3U – ROV Inspector
- 3.4U – Underwater Inspection Controller

### Certificate renewal

Personnel are required to sit an examination every 5 years to ensure up-to-date competency.
